Katherine Alondra Ruiz

Software Developer

alondraruiz167@gmail.com linkedin.com/in/krineruiz github.com/alon16

Full stack developer with 6+ years of experience building web applications with Vue.js, .NET, Node.js, Python, and Java. Skilled in designing scalable backend integrations, building reusable frontend components, and translating business requirements into clean, maintainable code. Passionate about continuous learning and sharing knowledge to help teams deliver high-quality software.

SKILLS

JavaScript | Express.js | Vue.js | Python | ASP.NET | Odoo | SQL | MongoDB | SQL | Node.js

EXPERIENCE

FULL STACK DEVELOPER 2020 - PRESENT

Hotaka Ikhodi

- Designed and built custom Odoo ERP modules (Inventory, Sales, Web, Invoice) tailored to client requirements, improving day-to-day operational workflows.
- Developed and implemented a REST API using Node.js and Express.js for logistics processes, including shipment creation, shipment justification, label generation and full lifecycle management.
- Built reusable, responsive HTML templates for invoices, labels, and emails using Flexbox CSS and Jinja2, standardizing document generation across the platform.
- Implemented Azure Blob Storage integrations in Python for efficient file storage and retrieval, improving the reliability of file-handling processes.
- Built dynamic, user-facing web applications in Vue.js with custom routing, state management, and reusable components, enhancing usability across client-facing features.
- Improved backend performance and data integrity in ASP.NET Core applications by implementing Redis caching and Fluent Validation.
- Developed backend services and APIs in Java Spring Boot to support cross-team integrations.

Skills: Vue.js, JavaScript, Python, Odoo, MongoDB, Express.js.

JR. DEVELOPER 2019 - 2020

Polaris Energy S. A

- Built a web application to track company equipment inventory using ASP.NET, Entity Framework, and SQL Server, replacing manual spreadsheet-based tracking.
- Extended the company's medical appointment system with new functionality for the health department, improving scheduling efficiency for staff.

Skills: ASP.NET, Entity Framework, SQL.

EDUCATION

INFORMATION SYSTEMS ENGINEERING - UNIVERSIDAD NACIONAL AUTONOMA DE NICARAGUA 2019
